OIL MATTERS.

Two New Wells Will be Started Next Week.

Nothing New Has Been Given Out Since Last Week About the Completed Well.

No important developments in oil matters have occurred since our issue of last week, beyond the fact that a new drilling rig has arrived and is being taken to the Northrup & Wood territory. A well will be started as soon as the machinery can be put in place. Also another well will be started soon near the one already drilled in, four miles south of Louisa.

Pumping machinery and a few of 250 barrels capacity have been taken to the completed well and a pump test will be made as soon as the machinery is set up.

The prospects are considered good and it is hoped the well will yield a good flow of oil. The property within the field has been leased.

Now all money matters have been settled. Great interest is being manifested.

Knights of the Golden Eagle.

The Grand Castle of Kentucky Knights of the Golden Eagle will convene in Grayson the second Tuesday in August. Grand Master J. H. Mahan has appointed the following deputies: L. N. P. Robinson, Cashier; John Nicks, Secretary; John W. Mabry, Treasurer; Jack in Smith, Parlor; Chas. F. Quinn, Hall; Fork Henry Adams, Kitchen; M. L. Sparks, Martha; John W. Hunter, Olive Hill; Robert M. Briggs, Chorion; George M. Bailey, Entertainer; G. McKimber, Charley; P. C. M. Clay, McGloves; John L. Howling, Potomac; Joshua Davis, Roscoe; Benjamin F. Dawson, Ashland; and F. D. Webb, Glenwood.

Republican Convention.

A meeting of the Republican convention of the 1st and 2nd Senate and 8th Legislative districts was held in Ashland last week to decide on the time, place and number of delegates to be sent to the county convention. It was decided to hold both conventions in Ashland on Saturday, August 11, with county and conventions on August 12.

Mass conventions will be held in each county on Friday, August 13, for the purpose of selecting delegates to attend the district convention in Ashland. The field of representation will be one delegate for each 100 votes cast for Wm. H. Hall, or fraction thereof over 50.

M. M. Hargens, of this county, attended the meeting.

Mr. and Mrs. M. S. Burns Entertain.

It is quite the vogue for those who entertain at lunch in the afternoon to supplement their function with whist in the evening, at which time the masculine element is kindly remembered with invitations. Mr. and Mrs. M. S. Burns were thoughtful in this regard last Thursday, and the acceptance of their invitations filled their elegant home. The night was hot and the games were "warm," but delicious punch flowed freely and the frozen feast served at the close minimized the heat and delightfully refreshed the guests. The affair was quite informal and altogether pleasant.

Pauley to be Census Supervisor.

Although the appointment is to be made some months later, it is now known that J. Ferrel Pauley, of Pikeville, will be selected as the Census Supervisor for the Tenth Congressional district. He is at the head of the Republican organization in Pike county. He will have an immense amount of work to do in the district.

Mr. J. D. Mende, a former citizen of Johnson county, but now residing in Pikeville, will be chief clerk to the Supervisor.

John W. Woods Married.

The following from the Ashland Independent will be read with much interest by the many friends of the groom.

The wedding of Miss Frances Peckles and County Attorney John W. Woods will take place next Tuesday evening, the 29th inst. It will be a quiet home wedding, and will be witnessed by only the immediate relatives. The Rev. Dr. W. P. Condit, pastor of the First Presbyterian Church, will perform the ceremony.

The bride-elect is the eldest daughter of Mr. and Mrs. Robert Peckles, and one of Ashland's most cultured and pleasant young ladies. County Attorney Woods is one of the county's most popular young professional men, his fact being evidenced by the fact that he was elected in his election for County Attorney. He is a graduate from the Kentucky State College, at Lexington, and while he was in college he was a member of the Phi Kappa Phi society, yet he has been a member of Ashland since he came out of college. He practices law just after having secured a license.

After the wedding Mr. Woods and his bride will leave for a several day trip to the north and on their return will be in the city for a few days before leaving for their home.

In Ditch Many Hours.

John K. Bell, a well known farmer, has been in the ditch for many hours, trying to get out of a hole in the ground. He has been in the ditch for many hours, trying to get out of a hole in the ground. He has been in the ditch for many hours, trying to get out of a hole in the ground.

ADJUDGED INSANE.

Sad Case of George Bell, a Learned Geologist Who Becomes Demented.

Mr. George Bell, a well known geologist, was adjudged insane by the Circuit Court in Louisa, on Wednesday last. He had been in the hospital for some time, and his condition was such that he was unable to take care of himself. The court found that he was insane and ordered that he be committed to the hospital.

Mr. Bell came to Louisa several years ago, but he has not resided here continuously, sometimes going to Chicago and elsewhere for a stay of some months. So far as we are able to learn, Mr. Bell has not been very violent in any time, but of late his mental aberration seems to have increased, and it was therefore deemed best to send him to an asylum for treatment. It is sincerely hoped that his present dementia is but temporary, and that the gentle restraint and the proper treatment of the asylum may soon entirely restore him. An attendant from the Lexington Asylum came for Mr. Bell and took him away.

Suggests Oil.

The hotel registers now bristle with such residence names as Oil City, Pa., Bradford, Pa., Titusville, N. Y., and Sistersville, W. Va. These places are great crude oil centers and the men from them have scented the field from afar. The hotel and livery trades should be looking up.

A Half-Life and Half A Life.

The NEWS this week publishes the first installment of the story promised in last week's paper. It is a story of much interest to Big Sandyans, both young and old. It will continue through six or seven issues.

I. O. of A. T. Member in the Toils.

We are sorry to have to mention the fact that our esteemed friend, Sir Knight B. P. Cassidy of the above named order is about to "get in bad" on account of alleged gross negligence of the observance of the rules of the society. Brother Cassidy has been for several years a member in high standing and his integrity of character has, up to recently, been unquestioned and we trust that he may be able to extricate himself from the grave charges now preferred against him.

It is claimed that he has been in the habit of arising early in the morning, even before the peep of day and, with face in hand and sleeves rolled up, has several times been observed in his potato patch back of his home making the dirt fly even into his neighbors' yards across the road. How any of the members who saw him happened to be out at this early hour is yet to be explained. We doubt that S. K. B. P. C. will be able to extricate himself from this incriminating position, and that the I. O. of A. T. Independent Order of Antiquaries may see it wise to discontinue his valuable services to the order. Ours is the opinion.

At the Hospital.

Robert Bell, of Little House, had been in the hospital for some time, and his condition was such that he was unable to take care of himself. The court found that he was insane and ordered that he be committed to the hospital.

Mr. Bell, a well known farmer, has been in the ditch for many hours, trying to get out of a hole in the ground. He has been in the ditch for many hours, trying to get out of a hole in the ground.

Louisian Fined.

Stev. Bell, who so abominably insulted Linn Muney in front of Davis on Sunday evening yesterday, was tried in police court and fined twenty-five dollars. Muney, who was in the crowd, declared that he had but a vague recollection of the affair. It was shown that he used provocative language to Bell and that he was guilty of disorderly conduct. He was fined five dollars. Mr. Bell was black in the face when he was arrested at the house of Fred Bell, and when he was taken to the hospital. He was taken to the hospital and he was taken to the hospital.

Flour Not Declining.

According to a Cincinnati dealer, there is not much chance for a decline in the price of flour for a good while to come. Flour is not as high as it once was, but it is not as low as it once was. The price of flour is not as high as it once was, but it is not as low as it once was. The price of flour is not as high as it once was, but it is not as low as it once was.

Killed on the Track.

Sunday No. 15, fast passenger train on the Norfolk Western railroad, ran down and fatally injured a colored man not far from Vivian. The man was walking on the track and was discovered by the engine men and though they blew the whistle, rang the bell and did everything possible to call his attention to the approach of the train, he gave no attention to the alarms but walked deliberately on until the engine struck him.

Judge William Beckner.

On yesterday Judge William Beckner, of Winchester, representing Superintendent of Instruction Crabbe, spoke to quite a large and very attentive audience in the court house, this city. The Judge handled the subject of education in Kentucky clearly and forcibly.

TWO DEATHS.

Louisa Homes Saddened by Loss of Loved Ones.

Wife of Mont Holt and Little Son of John G. Burns Called Into Eternity.

Between seven and eight o'clock on last Sunday evening Mrs. Mont Holt, wife of County Clerk Holt, died at her home in this city after a lingering illness of tuberculosis of the lungs. Her sickness was accompanied by much suffering, and death, unobtruded, was welcome to the patient wife and mother.

On Tuesday morning the body was taken to Louisville, once Mrs. Holt's home, and in the Methodist Church of the little village the service for the dead was held, conducted by her pastor, the Rev. Thomas Harpold. Her husband was in the city at the time of her death.

Her husband was in the city at the time of her death. Her husband was in the city at the time of her death. Her husband was in the city at the time of her death.

The infant son of Mr. and Mrs. John G. Burns died last Monday morning at 4 o'clock after an illness of about a week. The child was born on the 12th of June and was only two or three days previous to death.

The funeral took place at the residence at ten o'clock Tuesday morning, conducted by Rev. G. C. Hargens, pastor of the M. F. Church. Rev. G. C. Hargens, of the Baptist Church, assisted with the service. Interment was made in Pine Hill cemetery in the presence of a large number of sympathetic friends.

Little Rowland Thomas Burns was one year old on June 28th. He was the first boy to come into this home, of which two little girls had already made their appearance. Mrs. Burns was the first grandchild of John R. Burns to bear the family name, and the child's full name. The little fellow was the first of his parents and grandparents and his death is a heavy blow to all of them. In their bereavement they have the deepest sympathy of all friends and acquaintances. The funeral services were numerous and very beautiful.

Widow of John T. Johnson Dead.

Mrs. Johnson, widow of the late Rev. John T. Johnson, died at the home of her daughter, Mrs. Ruthen, at Central City last Thursday morning after an extended illness. She and her husband, who has been dead about a year, were well known throughout this section, the latter being a prominent minister of the M. F. Church. South. Mrs. Johnson's remains were taken to Round Bottom by Richard W. Van Meter.

Enforce the Dog Laws.

It is entirely safe to bet that there are still some dogs in Louisa upon which no tax has been paid. The night is made hideous by their yelps, and little helpless children on the streets are ready victims for any of the worthless mongrels which infest our streets. One of these dogs, we greatly fear, some one will bite some little one, and then, too late, a war of extermination will be waged.

Shocking Accident.

At Heller a few days ago a 12-years-old boy, son of a man named Kenova, was sent to the pasture to drive home a cow. He tied a rope around the cow's neck and tied the other end to his wrist. The cow becoming frightened ran, dragging the little fellow through creeks, wire fences, etc. He was fearfully mangled, and was dead when picked up.

Recent marriages in Pikeville are Miss Hester Bird Francis to Thomas Trivette, June 30th, and Miss Attie Brewer to Henry Thomas, June 28th.

Now Three Cents a Mile.

After the first of July passengers traveling over the lines of the Chesapeake and Ohio Railroad in West Virginia will have to pay for their transportation at the rate of three cents per mile, instead of two cents as at present. The two-cent rate has been in effect since the spring of 1907, the Legislature of that year having passed a law limiting the mileage rate for passenger traffic in the State to two cents. The action of the railroad in restoring the interstate rate will be the result of the order issued Tuesday by Judge S. C. Burdett, of the Circuit Court of Kanawha county, restraining from enforcing the two-cent law against the Chesapeake and Ohio. Judge Burdett's order provides that the railway company shall, in case it restores the three-cent rate, issue tickets bearing coupons entitling the court order, these coupons to be held by the passenger or relayed by the railway company in case the injunction is dissolved by the Supreme Court.

The Convention.

The Lawrence County Sunday School Convention met in the Southern Methodist Church yesterday afternoon. The attendance is good and the interest deep. This paper went to press early in the day and we can only announce the fact of the meeting. Next week our readers will find in the NEWS a full account of the Convention and its doings.

Fiscal Court in Special Session.

The Lawrence County Fiscal Court was in session yesterday. The term was called, as was noted in the NEWS some time ago, for the purpose of providing for the immediate repair of the county bridge across Georges creek. Court was in session as this paper went to press. We will give the proceedings next week.

SPENCER-HAYS.

Marriage of Dr. L. S. Hays and Miss Bertha Spencer.

These names as you see them united by a hyphen signify another and more significant union. They mean that Miss Bertha Spencer, of Charles, and Dr. Scott Hays, of Adams, this county, are now man and wife.

The young Mr. Hays rode into Louisa on Wednesday last under whip and spur, his horse in a heavy sweat, and the doctor wearing an anxious look. Those who saw him and his horse wondered much, fearing some dread accident had occurred and help was wanted. The first question asked by him, however, put apprehension and wonder at rest. "Where can I find the Rev. Bernard Spencer?" Then his features began to think a few thoughts, to put this and that together, and dread gave way to smiles. It is fair to presume that the doctor found the Rev. Spencer or some other minister, for Dr. Scott Hays and Miss Bertha Spencer were married yesterday at the residence of Lewis Spencer, the father of the bride.

The NEWS find especial pleasure in noticing this marriage. The young bride is one of this county's most estimable women, possessing all those traits which make and grace a noble womanhood. The groom is one of the best equipped young physicians in the county. He broke many records while a student in Louisville, carrying away high and deserved honors. The NEWS extends to Dr. and Mrs. Hays its hearty congratulations and sincere wishes for continued happiness and prosperity.

Killed in the Mines.

Ed. Fannin, son of Thomas Fannin, of Chestnut, near Whitehouse, was instantly killed in a coal mine at Red Jacket, W. Va., on Monday last by falling slate.

The body was brought to this place on Tuesday, via the N. & W., and shipped to his former home. He was 18 years old and unmarried.

Mrs. Charles Abbott, who had been visiting Mr. and Mrs. James A. Abbott for several days, returned to Fayetteville, W. Va., on Monday.

Reports About Our Oil.

Lexington, Ky., June 27.—Except for the drilling in of a "wildcat" well in Eastern Kentucky, the past week in the petroleum fields reveals little of interest. The low price of oil has limited operations to the more productive spots, and there are now many idle rigs, belonging to operators or contractors. As a rule, the smaller producers are not profitable under existing prices, and except on leases where a bunch of light oils are operated by central power, at a minimum expense, the two and three-barrel wells have been cut out.

The attention of the trade has been directed to the Eastern Kentucky district the past week. Reports of a good "wildcat" strike in Lawrence county. For several months Pennsylvania operators have been trying out that district, and last week a good showing of oil is reported at 1,750 feet. There are no producing wells in Kentucky at this depth, and if reports of the new strike be true it will be of much importance to the petroleum industry in that section. A number of operators have gone to the new field to investigate, and if conditions justify many deep test wells will be drilled during the summer. Two new rigs are up this week for test ventures close to the new find. In Eastern Kentucky the only proven field is in Floyd and Knott counties, the old Whitehouse development, along the border of these counties being one of the oldest fields in the State. A superior grade of oil was found several years ago, and until the past two years much activity prevailed.

New Railroad.

The new railroad from Morehead to Loveland, in Morgan county, is about completed and will be in operation in a few weeks. The new road is known as the Morehead & North Fork line, and will tap some of the richest coal and timber lands in the State. The building of the road was started several years ago, but owing to the roughness of the country and the great amount of money which it would require to complete it the original promoters gave up the idea, and it was only in the last few months that the new company took charge of it and pushed it to completion. Little has been said about the building of the road since the new concern took hold of it, as it was thought it would never be completed.

The Public Pumps.

If possible the public pumps in this place should be placed in the custody of the city marshal, and the boys and fool men who monkey with them should be treated to a good stiff fine. It is no uncommon thing to see a lot of boys doing their best, apparently, to break the handles off the pumps. They jump on them, jerk them from side to side and do all manner of things to break or put them out of order. It is remonstrated with you are told to go to a land that is hotter than this, or run the risk of having a dornick waisted at you.

If there is no ordinance covering this matter make one, and enforce it.

Fort Gay Leader Moves to Kenova.

The Fort Gay Leader, a newspaper published in our neighboring town just across the river, is removing its outfit to Kenova and will continue to appear regularly from that point. Kenova is a strong location for business. A strong company of capitalists are now pushing Kenova to the front and have secured some large manufacturing enterprises. The Leader is getting in on the "ground floor."

Death of Harry Hager.

Harry H. Hager, son of Mr. and Mrs. S. P. Hager, of Ashland, died Sunday about noon at the home of his parents. Though he had been in declining health for the past few years, his condition had been critical but three weeks, and death was due to tubercular trouble. Mr. Hager was born in Paintsville, May 19, 1864.

Mrs. Rowland Endicott, of Webb, died at her home and was buried on Friday last. She left a baby about ten days old. Her husband is a brother of Mrs. Jeff Wilson.

Fourth of July will be celebrated as never before at the most picturesque spot in the Blue Grass State—Cliffside, "The Park Beautiful" near Ashland.

As the Fourth of July this season falls on Sunday, the management has decided to hold the gigantic celebration on Monday, the Fifth, opening with the booming of cannon at sunrise and closing at night with a gorgeous pyrotechnic display, also a special arranged program of patriotic selections by the celebrated Post, Crawford Military Band.

Among the many new sensational and interesting features of the park is the huge coaster ride "Leap the Dips," where you start from terra firma and you dart almost instantaneously into the azure sky—you make the trip so hurriedly that you all but lose your breath—but you soon regain it when you return safe and sound to the point from which you start. This trip no one wants to miss, for it is on this route that you visit every time known.

"The Third Degree" with its mystic winding passages, the bridge of fate, the king's throne and many other pleasant surprises, makes this trip one of joy and laughter never to be forgotten.

The Japanese Village and Tea Garden, with many little Japs in native costumes, serving teas and rice cakes to their patrons and playing their favorite game "Rohy Boly."

Then there is the everlasting pleasure device, "The Merry Go Round," the photo post card gallery, the shooting gallery, the new dance floor and fine metropolitan orchestra of eight pieces, boating, &c.

The grand fireworks display will be the most gorgeous pyrotechnic exhibit ever given in this section, far surpassing the grand display given by the Shrine at the park during this season's convalesce.

Special attention will be given to all basket picnic parties that wish to bring their own entables. A very high class restaurant is upon the grounds where one can satisfy the inner man at a very reasonable figure. Everything will be arranged to make the day one of enjoyment for all.

little darling Earl.

Mr. and Mrs. J. E. Hughes.

Worthy of Imitation.

The authorities of Boyd county are
going to drop the name "Poor House"
and call the infirmary the Boyd
County Home.

The committee will not hereafter
sue out to the lowest bidder, as
heretofore done, the keeping of the
future inmates, but will employ a
competent superintendent, who will
treat and care for all who live at the
home in a kind, humane manner.

the West Virginia officials.

Unexpected Speed.

Uncle Josh's gray mare became
tired of the plow and the heat and
the flies one day last week and made
a break for liberty. Josh had left
her in the farrow while he took a
drink (of water) and the moment
his back was turned out of the field
the mare started at the top of her
speed. As she went out of the gate
she left the plow and the single-tree,
and with chains rattling the critter
made for town. She touched only the
high places, and every time the gears
hit her she took a kick at the sun.
On she sped, safely turning corners
and missing babies, finally fetching
up at Dave Ward's. Here she sud-
denly came to anchor, drew a deep
breath and stood sedately still. She
will be entered for tomorrow's race,
with none to bet against her.

A New City and May be a Big One.

Everybody is talking about Man-
uel town, a little city located one
half way between Houston, a city
of about 100,000 people and Galves-
ton, the great port of entry.

When the Panama Canal is com-
pleted and Galveston becomes the
main port of entry and Houston 40
miles away with more than half as
many railroads as Chicago, who can
tell what the city of Manuel and
her lots will be worth? We know
that this is no piped dream, because
the Government is building the Pan-
ama Canal and the railroads at Hous-
ton and Galveston are now expending
in docks, wharves, tracks and depots
about \$5,000,000. This certainly
looks like they think it is time to
set up and take notice.

For information about this city and
how to get a business or residence lot
for \$500 and get free round trip
transportation to Galveston, see ad
in this paper or address the

FARM NEWS.

NEW USE FOR CORNSTALKS.

Prof. B. T. Galloway, of the Agricultural Department at Washington who has been experimenting with cornstalks as a material for making paper, announces that great progress has been achieved along this line. While he does not say that the experiments so far prove that the thing is actually accomplished and is a commercial success, he is very hopeful that it will work out satisfactorily.

The paper workers are greatly interested in the experiments because if it turns out that this great product of the farm can be turned into good paper it will have a marked effect on the paper-making industry.

Cornstalks are about the cheapest product grown on the farm, and while not entirely useless as stock food, millions of acres are allowed to go entirely to waste every year.

Paper-making wood is becoming somewhat scarce, although there is so much timber in the northern woods as some alarmists would have you believe. It, however, the Government succeeds in making good paper out of cornstalks, the wood will last longer and the price of paper will not be advanced to a point where its use would necessarily be restricted.

The Government has done many great things for the benefit of the farmers, but if the cornstalk experiments prove successful that achievement will rank among the most beneficial.

It will be a great day when the farmer can read the news printed on paper made from the cornstalks grown in his own field.

JUNE WORKING NOTES.

Notice little white spots on the pear leaves? This is leaf blight. Bordeaux sprayed about three weeks after the blossoms fall and twice more at intervals of about two weeks will prevent it.

The leaf-eating insects are busy in the orchard now. Give them their green.

The June heat is the most devastating of the season. Go slow with the horses and take it easy yourself till hardened to the work.

Now the sprouts on the trees are sprouting vigorously. Better rub them off now than cut them later.

When you plant cantaloupes sow them in shallow or turnip seed in the hill. These will come up first and keep the bugs busy till the vines get a start.

Don't neglect to plant sweet corn at least three times—six is better.

Now is a good time to give the poultry houses a thorough cleaning—not a partial one—and whitewash. Mites thrive in hot weather.

Remember that flies breed in filth and dust and carry more disease than rats. Clean up every breeding place and screen them out of the house and dairy.

It is a mistake to let bee hives stand in the hot sun. Place them under a sheltering tree or vine with a good circulation of air.

If you do not have a hive ready the bees will surprise you by swarming when you are the busiest and you may lose them.

If you have no range for the poultry you must give them green stuff all summer. Sharp grit, too, not sand.

Better burn all the old berry crates. Fruit in nice, clean boxes will bring a price enough better to pay for the loss of the old crates.

If the cabbage root and set is at work fit a piece of tarred paper close about the base of the plants. It will help.

Agts. Cleveland, Ohio.

If you grow late maturing crops in the peach orchard they will keep the wood growing too late to make them this month.

SOME POULTRY YARD HELPS.

Save the earliest and best pullets for winter layers. If one or two are not so thrifty as the rest, get rid of them.

Keep your chicks. It is a nuisance to have to use a shotgun to catch a chicken. Incubator chicks have this advantage, they are accustomed to being handled and are never rendered unmanageable through fright.

Count your flocks as you feed. A missing one may be found and rescued from some trouble if it is looked for at once.

Strips of cloth tied on the branches of trees near the poultry yard will do much at frightening away hawks.

THE PEAR ORCHARD.

The first three or four years after setting it is best to cultivate the pear orchard in vegetables of some sort, but never in wheat or rye. The vegetable crops require both manure and cultivation, which benefit the young pear trees.

When the pear tree makes a fair growth the fifth year the orchard can be put in clover and for 12 or 15 years in that crop.

The first crop of clover may be taken off, but the second crop should never be taken off, but should be left to rot on the ground to enrich the soil.

While the pear orchard is in clover it is beneficial to hoe or grub around each tree in the spring and keep the soil loose around it. This destroys many insects and also keeps them from nesting there.

Each spring and fall walk down the trunk and large limbs of the trees with a solution of soft soap and water about half and half. This will destroy insects and keep the bark smooth and healthy.

Keep down all suckers from around the roots and remove all sprouts from the trunks. The pear, however, needs but little pruning if the trees make a strong and vigorous growth for several years, unless there is a tendency to grow too much in height at the expense of the width.

Low heads are more desirable. However, when pruning is necessary it should be done to conform to the habits and natural shape of the tree. — R. B. Roshing.

HELPS FOR FARMER'S WIFE.

Never wash tan or brown hose in hot water or in water that has been used for other clothes. Use tepid water and white soap, washing carefully with the hands, rinse thoroughly, and hang at once to dry, and they will retain their colors.

A basin of cold water placed in an oven that is too hot when baking will bring down the temperature more quickly and to better purpose than by leaving the oven door open.

A vessel of boiling vinegar kept on the stove when cooking cabbage, onions or other vegetables will counteract the odor, which is often offensive when the house is closed.

Upheaved furniture should never be beaten directly upon the covering. Lay heavy cloths on top and then beat, removing the cloths frequently and shaking well. This will prevent the dust from rising and scattering and will preserve the covering.

Never put hot food of any kind into a refrigerator or meats or poultry without a plate under them. Neither leave meats wrapped in the papers in which they are brought from the market.

DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

OUR NEIGHBORS.

The Carter county grand jury was released Wednesday of last week, after a nine days' sitting and the finding of sixty-nine true bills.

C. P. Estes, of Georgetown, Ky., who will be in charge of the Baptist College at Treasontown, is there looking over the prospects.

Thomas J. Mayo was painfully injured Tuesday while working with a mowing machine on his farm in the suburbs of Paintsville. His left leg was badly torn by the point of the cutter.

Dr. Donald B. Rice, who graduates June 20 from the medical department of the University of Louisville, made a general average of 95 per cent, and was chosen vice-president of his class. Dr. Rice is a son of Chas. Rice, a well-to-do farmer residing near Paintsville.

George Popovich is now a full-fledged citizen of Paintsville. Mrs. Popovich and sons, arrived from Pittsburgh, Pa. 2000 and are comfortably housed in one of the nice cottages in Happy Hollow. Mr. Popovich has a nice position with John May.

Grasson, Ky., June 25. Frank and Fred Prater, charged with the murder of Stephen Stumper last December, were acquitted this morning. This was the hardest fought case tried in many years in our courts and the interest in it seemed to permeate all sections of our county. Able addresses were made by Judges John Marmon and H. R. Dwyer for the prosecution, and Judges Will Cunniff and E. B. Whitfill for the defense. Frank Prater was Sheriff of the town of Grayson at the time of the killing, and the Stumper family interfered when he was attempting to arrest one Frank Bradshaw.

On last Saturday C. F. Rule purchased the stock of H. M. Stafford and Dr. F. R. Turner in the Paintsville Grocery Company, of shares in all, paying cash for the same. Mr. Stafford is in ill health and will retire from business and take up his residence at Cincinnati, where his son, Dr. F. R. Stafford, resides. Mr. Rule will take Mr. Stafford's place with the company. He has had extensive experience in the whole grocery business, having for a number of years had the management of a wholesale grocery business at Louisville. Mr. Rule is personally acquainted with the merchants of this section and will make a valuable addition to this already very prosperous concern.

Dr. F. M. Hayes has appealed from the decision of the Johnson County Republican Committee, which, sitting as a contest board, cancelled Hayes' certificate of nomination for County Attorney. At the Republican primary election held November 17 last, Hayes received a small majority over Sam Stapleton and likewise a small majority over W. E. Litteral. Hayes was given a certificate of nomination and Stapleton and Litteral instituted contest proceedings before the local committee. Testimony was taken and after hearing the whole thing aired the committee by a vote of 8 to 4 held that so much fraud had been shown that no nomination had been made and cancelled Hayes' certificate. Hayes' appeal will be heard by the State Central Committee, at Louisville, Tuesday, July 6. The decision of the County Committee will be affirmed by the State Committee and the people will settle the controversy at another primary.

A STORY OF A CITY WITH A FUTURE

The larger the diversity of ownership interested in a city or community, the better your community.

We own several thousand acres of land and it is to be sold in retail real estate.

We want to get people interested in us and our business. We know Texas in the near future. We want a chance to show them what we have to give them the very best of accommodations in route, having cars and sleepers, and automobiles to show our land.

We have the best alfalfa, corn, truck and general farm land of all sizes up into size tracts to suit the purchaser, whether he wants to buy or we sell on easy payments. We do not add a live price to a dead commission. We are paying our representatives a board of 100,000 acres of land we sell but we do not expect to make a fortune on it. We are more than any other company in business and we expect to be. We will refund his money and when we say this we mean it and we mean it.

Now in order to get acquainted with you and your wife, we are in the city of MANVEL, BRAZORIA COUNTY, TEXAS.

These lots are all smooth, desirable, and in good condition. The town is growing and public improvements are being made. Our lots are in Texas and in us. We therefore are guaranteed. We are putting the price low so that we can make quick sale in this time for this winter's business. We sell these on easy payment, or cash, or lot and give 5 per cent discount for cash.

With each aggregated \$300 worth of lots sold, we will give you a trip from St. Louis or Kansas City, and with each aggregated \$500 worth of lots sold, we will give you a trip from St. Louis or A Story That is Based on Big Sandy Experience and Was First Published Half A Century Ago.

Few persons know that within a hundred and fifty miles of the Queen City of the West, bounded on both sides by highly cultivated tracts of country, looking out westwardly into the very garden of Kentucky, almost in the range of railroad and telegraph, in the very geographical centre of our most populous region there lie some thousand square miles of superb woodland, rolling, hill and dale, in the beautiful undulating which characterize the country bordering on the Ohio, watered by streams which need only the clearing away of the few obstructions incident to a new country to make them navigable.

a child makes upon a grown perso

There was a relief when the mother left the house; but then came the dream, "sleeking-up," almost disgusting, in its false, superficial show of cleanliness, than had been the open carelessness of the workmen. But there was no time for rest; the step-mother's sharp, high-pitched voice was heard calling, "Janett!" and I followed her to the garden to dig the potatoes from the hills or to the cornfield to pull and husk the three dozen ears to corn which made our chief dish at dinner. Then came the work's washing, the apple-peeling, the pork-salting, work varied only with

An ideal farm for all purposes, dwelling, new barn 20x60 feet, chickens, corn and never failing well, plenty running water. 25 acres under cultivation, 20 acres pasture, 15 acres woods, balance meadow. Plenty fine timber, not an acre of waste land. On good pike, in best neighborhoods, new traction line will pass within one mile, oil and gas developments will soon begin. Price \$4500.00 if sold at once. All in easy reach of Chillicothe, one of the best markets in Ohio. I have plenty of others, for particulars call on or address John R. Preston, R. F. No. 7, Chillicothe, Ohio.

NORTHCOTT'S

Noteworthy Styles in Young Men's SUMMER SUITS.

Every feature of goodness a summer suit can possess, these young men's summer serges and relaxed talabes have it.

Not alone noteworthy style have they; but likewise quality in finish and outside tailoring. (This means a world of satisfaction to the wearer.) Did you know a summer suit required really better tailoring than a winter one? Why? Because lighter weight fabric being easier to lose its shape unless made very carefully and well at every point.

You won't obligate yourself a bit by trying on some of these suits—blue serge or new colorings which are excellent values at \$18, \$20, \$22, \$25, \$28, \$30 and \$35.

STRAWS AND PANAMAS LOOK AND FEEL COOL.

Why should men wear hot felt hats when a straw or Panama possesses thrice the comfort and costs no more than these: sailors \$1.50, \$2.00, \$2.50, \$3.00, \$3.50 and up, wide medium or narrow brims and crowns at all heights.

Genuine Panamas, any style, good looking, comfortable and will do service several seasons. \$6.00, \$8.00 and \$10.00.

UNDERWEAR has a lot to do with comfort in hot weather. This underwear is full of comfort, \$1.00 to \$6.50 a suit—union or two piece.

Give Them Help and Many Louisa People Will Be Happier.

"Throw Out the Life Line"—The kidneys need help. They're overworked—can't get the poison filtered out of the blood. They're getting worse every minute.

Will you help them? Doan's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair.

Will cure any form of kidney trouble.

Mrs. Frank Pleg, of Louisa, Ky., says: "Doan's Kidney Pills entirely cured me of kidney complaint and I am glad to recommend them. I suffered from headaches and backaches and also had pains through my loins. I was weak and miserable almost all the time and the kidney secretions were irregular in passage, causing me additional annoyance. Doan's Kidney Pills were at length brought to my attention and I began their use. They relieved me at once, resulting the passage of the kidney secretions, strengthening my back and entirely ridding me of all symptoms. I gladly recommend Doan's Kidney Pills to my friends."

For sale by all dealers. Price for cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Saturday morning, June 26th, Mrs. Zella Taylor died at her father's at Buchanan, aged 23 years, 1 month and 19 days. She had been very ill for some time and her death was a great shock to her relatives and friends.

She was converted about four years ago and has lived a good woman ever since. She was the daughter of James Edmund and wife of John Taylor. She was loved and respected by all who knew her. She was a kind and loving daughter, a helpful sister and affectionate wife. The funeral was conducted by Rev. John Buckley, and was one of the most appropriate services ever given in this place. The body was conveyed to a beautiful casket and interred in the cemetery at Buchanan.

Each of the chief organs of the body is a link in the Chain of Life. A chain is as strong as its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

Given Away—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
